

2018- Birth of UCOPE

[United Constellation Of Parent Empowerment] is a brainchild and endeavor of families who have achieved cognitive/behavioral coherence through the DOAST Integrated Therapy Centre For autism.

The mission of UCOPE Trust is to bring in peace and confidence by converting *‘Family confined responsibility’* to *‘Collective Parental Responsibility’*.

DOAST -UCOPE aims to establish SADANIKETHAN to energize parents globally to face the challenge of Autism and other neurological ailments through Humility, Respect and Boldness of knowledge

SADANIKETHAN is conceptualised as a Unique, Self-sufficient, co-existing community in **A VAST NATURAL AMBIENCE** as a **value-added therapeutic facility** utilising **DOAST** technology.

SADANIKETHAN

Will be a Multi dynamic, research based, clinical initiative to address Health, Social, Behavioural and Life style requirements of Global Families.

DOAST-UCOPE mission aims at creating the ONE STOP/
FACILITY/TOWNSHIP – ‘SADANIKETHAN’.

This is a **value-added DOAST therapeutic facility for the present cohort of children** and would serve as a nucleus FOR diagnosing and managing any such afflicted child into a semi- independent individual by 18 years of age.

In the larger goal, SADANIKETHAN aims at creating
ACADEMIC/VOCATIONAL avenues for these individuals as they turn into
ADULTs and make it into mainstream success.

In the research on treatment of autism, this endeavor aims to create a positive platform where biomedical treatment targets could be effectively used to achieve **functional connectivity** and **independent existence**.

***ONE STOP ENTITY
'SADANIKETHAN'***

*will take care of a child with Autism
in TOTALITY for life.*

We effectively convert 'Family confined
responsibility' to 'Collective Parental
Responsibility'

Lessening the anxiety AND converting the
statement 'MY Child' into 'OUR Children'
in this ONE STOP ROOF is the
EFFECTIVE ANSWER FOR
What is the plight of MY child after me'
